COUNCIL REGULATION (EG) Nr. 834/2007 on organic production of agricultural products and indications referring thereto on agricultural products and foodstuffs

Dear Sir's,

The following products are not GMOs or GMO derivatives. In our opinion, further testing in respect of this aspect is irrelevant due to the production process and/or origin of these products. The products are largely of synthetic or mineral origin. In the production of products of plant or animal origin, no raw materials of potential GMO origin (e.g. maize, soya, rape, potato, cotton products, derived products, vegetable-based oils or greases) are used. No fermentative processes or products from fermentative processes are used in any of the products.

SIHA Bentonite	mineral origin
SIHA Activated Carbon/Actiliq	anorganic raw material
SIHA Carbogran	mixture from mineral and anorganic raw material
BECOGUR	natural origin
BECOLITE	mineral origin
BECOCEL	natural origin
BEVASIL 30	synthetic origin
SIHA Vitamin B1	synthetic origin
SIHA Potassium bicarbonate	synthetic origin
SIHA Potassium Disulphite	synthetic origin
SIHA Gelatine	animal origin
SIHA OptiGel	mixture from synthetic and animal raw material
SIHA Casein	animal origin
SIHA Optipur	mixture from synthetic and animal raw material
SIHA GESIL	mixture from synthetic and animal raw material
SIHA OptiSil	mixture from mineral and animal raw material
SIHA Isinglass	animal origin
SIHA Wine Lime	anorganic raw material
SIHADEX	anorganic raw material
Pure Tatar	natural origin
SIHA Tannin	natural origin
